Career Education and Enhancement for Health Care Research Diversity

Career Education and Enhancement for Healthcare Research Diversity (CEED) Program

The University of Pittsburgh is committed to becoming a leader in the national effort for diversity among clinical and translational researchers.

It is with this goal in mind that the CEED program aims to:

Jump start the careers of underrepresented minority researchers by providing them with mentoring as well as the skills and knowledge needed for successful research careers

Provide training in grant writing, making presentations, and other skills required to develop competitive career development awards

Ensure a supply of well-qualified science, clinical, and translational investigators in the healthcare research pipeline

Who should apply?

Individuals from underrepresented backgrounds (African-American, Hispanic, Native/American Indian, or individuals with disabilities) who meet all of the following criteria should consider applying to this program:

Committed to a career in health science research

Prepared to devote nine months to research training

Fellows, post doctoral trainees, and junior faculty in the University of Pittsburgh Schools with a degree (MD, PHD, or DDS)

For an application and more information please visit the CEED Program website:

<http://www.icre.pitt.edu/ceed>

Timeline for Application and Selection

June 2, 2008	Deadline for receipt of completed applications
June 30, 2008	Official Notification of trainees
September 1, 2008	Official start date of training program
