

University of Pittsburgh Clinician Educator Training Program

MEDEDU 2260

Course Director: Rosanne Granieri, MD

SEMINAR SERIES IN MEDICAL EDUCATION

Course Type Seminar series
Elective for Masters and Certificate program

Course Summary

This course allows students the flexibility to choose among 3 established seminar series in medical education and attend specific topics of interest and relevance to their teaching roles. The seminar series include:

1. MERMAID SERIES: Medical Educational Research Methods and Innovative Design
2. Academy of Master Educators (AME) Seminar Series
3. Medical Education Grand Rounds

Specific information of dates and current and past topics for each series is contained on the individual websites.

- Point Person: Rosanne Granieri, MD

- **Medical Education Grand Rounds**
- **Friday 12-1 PM**
- <http://www.megr.pitt.edu/>
- Point Person: Colleen Mayowski

Course Mechanics

1. Documented attendance at 16 sessions. The student is responsible for documentation.
2. In order to promote active learning and enhance the relevance of the topics to the individuals' teaching roles, enrollees for this course will be required to choose one skill or learning point from the any of the 16 sessions attended. The enrollee will then provide a one page (maximum) description on how this was implemented in one of their specific teaching assignments or activities and describe its outcome. This needs to be completed prior to credit allocation and submitted to the course director.

Course credit: one credit

Grading: Pass/Fail

Prerequisites: none

Text required: none
